The focus of Collection Management Services (CMS) is the management of a wide variety of information resources (physical and electronic) for Blazer Library's collections. Using the library's WorldShare Management Services (WMS) platform and other web-based systems, the department is responsible for selection, ordering, cataloging, online maintenance, inventory, transfers, deselection, and withdrawals. CMS personnel oversee critical systems components, including the WMS knowledge base, the WorldCat Discovery (<https://kysu.on.worldcat.org/discovery/>) online catalog, [Journal Finder](https://journalfinder.wtcox.com/kysu/) (<https://journalfinder.wtcox.com/kysu/>), and [Interlibrary Loan](https://www.kysu.edu/academics/library/interlibrary-loan/) (<https://www.kysu.edu/academics/library/interlibrary-loan/>).

Collection Management Services consists of the following units:
